Title:
Comments: I belong to the snowmobile club in Sumpter and since we didn't have any snow last year that we couldn't even groom one time. We are really in need of being able to groom and get our members out on the trails. Totally understand the logs need to be hauled but hopefully they can leave us a few trails that we can use. I know there are a ton of them up cracker creek at the bridge when that's where the snowmoblers unload their sleds.

Hopefully we can work together.

Jane
