Comments: Nez Perce-Clearwater Revised Forest Plan

Nov 5, 2014

Forest Plan Revision Nez Perce-Clearwater National Forests  
ID

Dear Nez Perce-Clearwater National Forests,

I am writing to express concern with the current proposal for the Nez Perce and Clearwater National Forests revised forest plan, which would significantly decrease current protections for fish and wildlife. I urge you to instead adopt the citizens' alternative prepared by Friends of the Clearwater.

The new forest plan needs to include clear and enforceable standards to ensure protection for the area's imperiled species like wolves, bears, lynx, wolverines, salmon and bull trout. And these standards must be based on the best available science, which recognizes the critical importance of these wildlands in central Idaho.

The Forest Service must also protect all remaining roadless areas on these national forests. Due to past forest fragmentation these unroaded areas are far more important as protected refuges for fish and wildlife than any other use or activity. And the Forest Service must also develop a plan that protects the remaining old-growth forests on these lands, as well as the area's rivers and streams, improving upon existing standards for water quality, rather than weakening these standards with loopholes, exceptions and unenforceable provisions.

The values that many hold of protected wildlife habitat and improved non-motorized recreation opportunities must be thoroughly discussed in this process, and preserved by the new forest plan.

Thank you.

Sincerely,

Mrs. Margaret Wood
