Comments: Forest Plan Revision: Comment

Im writing you in concern about the proposed motorized recreation in the Hoodoo Roadless area. I urge you to consider the adverse impact on critical Ecosystem habitat if option B was implemented. Managing this place with limited to no impact from motorized vehicles allows for its continued use as a class room, habitat and place of quiet recreation in a truly spectacular and wild place. This is why I would like to voice my support for Only Option A.

Thank you for your time,  
David
