Comments: plz reject Draft EA

Forest Service,

I enjoy being a visitor to the Pusch Ridge Wilderness in the Santa Catalina Ranger District of the Coronado National Forest. I enjoy hiking there and plan to return to the area as much as I can in the coming year.

But the use of helicopters for the bighorn sheep reintroduction project concerns me because I know that the overflights and helicopter landings will negatively impact my recreational experience. I am also concerned that all of the sheep that will live in the Pusch Ridge Wilderness area will be collared and this will detract from the primitive experience I am seeking. The Draft EA does not provide sufficient documentation to allow a Finding of No Significant Impact and therefore the project should be rejected or an Environmental Impact Statement prepared.

Sincerely,

Gabriel M. Schivone
