Title:

Comments: Cibola Forest Assessment Report and Needs for Change Comments

Needs for Change Statements - no comments from KAFB Community Planning.

Assessment Report - Please reference Socioeconomic Assessment, Volume II, Chapter 8, pages 231-233. The trends listed for Mt. Taylor, Sandia, and Magdalena RDs include military training while Mountainair RD does not. However, our records show there is a helicopter landing zone (HLZ 10) in the Mountainair RD. It's located on the western boundary in Township 5N, Range 4E, Section 13 in Management Area 15 for Full Capacity Rangelands. See attached map.

Recommend verifying this is consistent with your records and coordinating as needed to determine if there are any trends associated with this to be included in the assessment. Please let me know if you disagree.

Subject: Cibola Forest Assessment Report and Needs for Change Comments

Good morning,

Assessment Report:

Please reference Volume II, Chapter 8, pages 224 - 225. The trends listed for Mt. Taylor, Sandia, and Magdalena RDs include military training while Mountainair RD does not. However, our records show there is a helicopter landing zone (HLZ 10) in the Mountainair RD. It's located on the western boundary in Township 5N, Range 4E, Section 13 in Management Area 15 for Full Capacity Rangelands. See attached map.

Recommend verifying this is consistent with your records and coordinating as needed to determine if there are any trends associated with this to be included in the assessment. Please let me know if you disagree.

Needs for Change:

I am still working on a couple new Needs for Change statements. I need to verify this with my leadership before I send it. I have a meeting scheduled for the 17th and hope to be able to provide them to you later that day, if that's not too late. Please let me know if this is a problem.

Sincerely,
