Comments: Invasive plant DEIS

July 6, 2015

Dear Kit Mullen and Carol Brown,

Yesterday I received your "Dear Forest User" letter requesting comments on the Invasive Plant Treatment DEIS. A green self-addressed postcard was also included.

You should both hang your heads in shame!

The postcard had no stamp. You expect the public to spend money to comment on the land they own? There are 322 million owners of the Sawtooth National Forest. Some are homeless. They value every penny.

The USFS annual budget is 6 billion\$\$\$\$\$\$\$\$\$\$\$\$\$, yet you abuse the public by requiring them to obtain and purchase a stamp?

Who are you?

I suggest you both read 40 CFR 1502.9(b) and 40 CFR 1506.6(a). You have violated both laws.

I will expect you to send another letter to your hardcopy mailing list with a postcard that says "No Postage Necessary if Mailed in the United States" immediately. Failure to do so will give you the opportunity to discuss the matter with one of Senator Crapo's aides. He has staff dedicated to helping his constituents with uncooperative Federal Agencies.

I also expect you to keep me on your herbicide mailing list. I prefer email. It saves paper.

Sincerely,

Dick Artley (USFS retired)
