Comments: Hello, as an local mountain bike rider in the sandia mountains, I am concerned by the intent to make certain areas of the forest wilderness areas that are currently prime mountain biking locations. these include D5_ADJ4 1664.2ac, D5_ADJ4.c 6.3ac, D5_ADJ5 1216.7ac, and D5_ADJ6 735.6ac. These areas include tree spring, oso corridor and 10k trails as well as the trails in the north foothills. Please do not make these areas wilderness. Exisiting wilderness areas have already limited biking in the sandias.

Thank you,
Ryan Martin
