Re: Invasive Species Project

Invasive Species Project:

The Boise County Board of Commissioners supports the proposed environmental impact statement to analyze and disclose the effects of using an Integrated Weed Management approach to control invasive and noxious weeds forest-wide.

We understand that Noxious and invasive non-native plants on the Forests are compromising the ability for the Forest Service to manage for healthy native ecosystems. Boise County Board of Commissioners supports this project and would like to see it move forward.

If you have any questions, please contact the Board of Commissioners at 392-4431.

Sincerely,

Board of County Commissioners
