Comments: Put that the riding area they are designating The very snowmobilers you are trying to limit & restrict in certain areas are the ones that pay for those areas.the cross country skiers & outdoor enthusiast Do not pay a dime to enjoy the areas that we pay for.snowmobiles riding ontop of the snow that melts away does no harm & have been riding in these areas for decades

This area is not even safe to ride and the area they are taking away is great,safe,family, environment and the boundaries that were previously in place years back are reasonable but not great. That the riding area that they are trying to give us is historically at or below snow line and should not even be considered snowmobile area!!
