Comments: I am apposed to turning area D5_ADJ6-735.6ac into a Wilderness area. I my opinion it does not fit the criteria for suitable wilderness. When riding in this area houses are visible from the trail and you can here air conditioners running. Not the solitude you would expect when in a wilderness area.

I also feel that areas D5_adj4-1664.2ac and D5_adj5-1216.7ac are not suitable for wilderness as well. These areas are very close to the crest highway and you can hear cars and motorcycles driving up and down the road.

I am in favor of all three of these areas remaining a multi use trail system.

Donnie Cole
