Comments: To Project official for the Sandia RD Inventory map

I support the status change to wilderness designation for the tracts adjacent to the Sandia Mountain wilderness (D5_ADJ 1-10 esp D5_ADJ6) and acquisition of the Albuquerque Open Space by the Forest service.

The trails in the tract D5_ADJ6 are suffering serious degradation from mountain biking with severe impact on local wildlife and soil quality that is only to get worse over time if mountain biking is not restricted.
