Subject: Cibola Forest Management Plan 2014

Matt/Champ/George,

Based on your criteria given during the meeting in Grants, NM on 9/11/14 for areas to consider for wilderness designation, the areas seen in the attachment DO NOT meet your criteria.

Inventory process- what NOT to consider: Roads mechanically maintained or identified for continued public use

These roads, although not maintained, have been continuously traveled for over 45 years +. As seen in the communications below, the forest service recognizes forest road 239. Branching off of 239 are many other roads that are currently being used by ranchers, hunters, pinon pickers, and folks just visiting, as is our right.

I ask that the entire Mt Taylor forest district NOT be recommended for wilderness designation. I also ask that this email be forwarded to Elaine Kohrman and that I be notified that it was received please.

Please call or email if desired,

Steve Gonzales

Subject: RE: Forest Rd 239

We had a planned to do some work on the road last year and that fell through. I agree it needs a lot of work and requires a four wheel drive and a very slow drive. We don't have plans for this year to improve the road, it might make the road improvement list next year.

Subject: Forest Rd 239

Mr. Reidy,

Does the forest service have a plan to maintain forest road 239 from san mateo to the BLM? It's almost impassable.
