Comments: Help designate Future Wilderness areas for New Mexico Forests

Oct 16, 2014

Cibola National Forest Supervisor Elaine Kohrman

Dear Kohrman,

As the Cibola National Forest continues the process to revise its plan for managing the forest, there is an important opportunity to preserve the wildest portions of the Cibola. These areas should be protected to maintain their natural characteristics, eliminating the possibility for human development and exploitation. Our public forestlands should be protected for the enjoyment and benefit everybody, not for short-term profit or the benefit of any one special interest group.

Please make the right call and preserve the special wild places in Cibola National Park, for the wild lands and animals to live and thrive, and for nature lovers of all kinds to enjoy!

Sincerely,

Rebecca Walding  
PO Box 146  
Cerrillos, NM 87010-0146
