Title:

Comments: Cibola Wilderness

Hello,

I urge you to please protect the Cibola forested areas as wilderness, where possible. It's not just important for the trees and animals there, it's important for us HUMANS.

Many of us keep our sanity by being able to leave the city and venture into wilderness, where we also add to the economy of the area, whether it be Grants, Socorro, or Magdalena, by staying and eating there.

Please allow us this escape to pristine areas.

Thank you.

Budd Berkman
