Comments: Proposed Wilderness

I've reviewed the proposals for the Magdalena District and I oppose adding to these wilderness areas. The reason these are not already wilderness areas, is that they are not the prime areas on the District. As a backpacker over 60, I like to be able to get close to the prime areas without hiking miles across the foothills. As a retired FS employee on the Cibola and Region 3, I am very familiar with this area.

Thanks,

Michael Noland
