First name: Thede

Last name: Tobish

Organization: Municipality of Anchorage

Title: Senior Planner

Comments: It is not obvious in the Draft Plan how the dozen or so private in-holding parcels are being addressed. While there is no formal public access to these parcels, and other state entities assume jurisdictions at the potential access points for these lands, recognition of these private parcels and the need for formal access should be included in the Plan. It is not obvious from the text or the maps that this is being accomplished in the Draft.
