Subject: Tracy Ridge

Reiterating from my original communication to the Forest Service: I strongly object to allowing mountain biking in the Tracy Ridge area. I backpack there all the time. I will share with you that we already see mountain bikers using the trail illegally. A couple of months ago one came close to running into us on the Rimrock trail. It was dangerous and I don't see how shared use makes sense. I also must object on the basis that there is so little actual designated wilderness in ANF. Tracy Ridge qualifies to be designated wilderness and should be labeled as such. Once it's gone, it's gone.
