Comments: Mountain Biking

Dear Erin Boyle,

This letter is in response to the information that came to my attention regarding the possible changing status of the trails on Mt. Lemmon and surrounding areas. As an SDMB member, I have come to know many fine, knowledgeable people who are readily available and willing to share their love for the Tucson area and its many trails. This has been extremely helpful when friends and family come visit and want to do some mountain biking. It would be a tragic loss to have any existing trail closed to mountain bikers. Please take this into consideration when reviewing any possible changes to the Tucson area trails. Thank-you.

Sincerely,

Brenden Henry
