Comments: Comments on Draft CNF Land and Resource Management Plan

Jennifer Ruyle, Revision Team Leader

Coronado National Forest

300 West Congress

Tucson, AZ 85701

Dear Ms. Ruyle:

Attached are my comments on the Working Draft of the Revised Coronado National Forest Land and Resource Management Plan, including previously submitted comments entitled "A Consideration of Rare Flora of the Coronado National Forest: Species of Concern and Species of Interest." Although these comments have been endorsed by the Coronado Planning Partnership and will be submitted with their comments, I thought it appropriate to send them to you separately since I am the sole author and would appreciate a response to the questions raised on pages 6-8. I also sent a hard copy to you via certified mail.

Thank you for your consideration of these comments.
