Comments: Our family has owned property in Pine Cove since 1991. We understand the Pine Cove/Kilroy Bay Area is located within the boundaries of the Buckskin Saddle Integrated Restoration Project.

Our main concern is reducing hazardous fuels on FS RD # 2711 especially on its north facing descent into Kilroy Bay and Pine Cove. Overtime a large & dangerous amount of wooded fuel has amassed in this area and a lightning strike or other event could reek immediate havoc for these two communities. Reducing the amount of hazardous fuels on this Mtn side, we believe as quickly as possible is of upmost importance. Within the scope of this work if #2711 is improved to allow better access & escape in the event of a fire, then all the better.

We belong to the volunteer Fire Department for Kilroy Bay & Pine Cove and own a house in Pine Cove.

Thanks for your effort in addressing these issues.
