Title:

Comments: I am opposed to the Foothills Landscape Project #52509 because it destroys forested areas without environmental review; limits to 3 days the comment period for the public citizens who own the land to weigh in on the project; hides from the public the true scope, location, and impact to ecosystems; and ignores scientific and environmental advice on the utility of such a project. This is public land so it belongs to the people, not the loggers and contractors or the Governor. I own land in white county with a beautiful view of the Blue Ridge Foothills. How will this project effect the mountains that I love and the rivers that run through it? we are not being told or allowed to speak!
