Title:

Comments: Please consider these concerns from a life-long Juneau resident. These recommendations from Renewable Juneau made sense when they issued them in 2018, and they make sense now. Be thoughtful in your development, please. Any Forest Service plan for the Mendenhall Glacier Recreation Area should specify NO expanded bus parking near the visitor center; NO vehicle access close to the existing facilities; remote parking for cars and buses during the summer with an electric shuttle system to move people to the facilities; manage for the future with an eye on climate change, renewable energy and sustainability. Also, any boats on the lake should be electric, NOT diesel.

Thank you,

Doniece Gott
