

Ms. Jackson,

I have been closely following Midas Gold Idaho's plans for several years. I am excited to finally have the opportunity to comment on their Draft EIS. Midas Gold Idaho presents a huge opportunity for the Gem State.

Midas Gold has worked hard to ensure the safety of the community during construction and operations of the Stibnite Gold Project. To minimize travel near important waterways, Midas Gold has proposed using Burntlog Road. This allows the company to take advantage of existing Forest Service roads and reduce travel on Johnson Creek and South Fork Road – both of which are heavily used by recreationalists. This plan maximizes safety and ensures all Idahoans have access to our public lands.

As the U.S. Forest Service and other state and federal agencies review the proposed plan and determine the course of action, I encourage you to consider and appropriately weigh the positive benefits Midas Gold will have on Idaho. Alternative Two truly is a win-win opportunity for Idahoans and the environment.

Sincerely,

Name: Karla Robinson
