

Dear Permitting Officials,

Thank you for the opportunity to provide feedback on the Stibnite Gold Project as part of Midas Gold Idaho's Draft Environmental Impact Statement. Public participation is a huge part of the permitting process and I appreciate the opportunity to share my thoughts.

Access to public lands is a right extended to all Idahoans. This is something Midas Gold understands and has prioritized in their Plan of Restoration and Operations. While some of the Stibnite Gold Project will take place on public lands, Midas Gold has made a commitment to the community to ensure access is preserved to people's favorite places. The company has promised to provide parking for winter recreationalists at their maintenance facility and submitted an additional plan to the U.S. Forest Service to allow Idahoans to continue to use Stibnite Road throughout the life of the project when it is safe. Their willingness to work with recreationalists to provide access gives me great hope for the future.

Midas Gold wants to restore the rivers, wildlife and habitat near the Stibnite Gold Project site. We should let them. Please permit the Stibnite Gold Project and continue to move this important project forward.

Most Respectfully,

Name: Bretts Stryhas
