

Ms. Jackson,

Thank you for the opportunity to provide feedback on the Stibnite Gold Project as part of Midas Gold Idaho's comment period. I have been closely following Midas Gold Idaho's plans since they first came into our state, in large part because much of the proposed project will take place on public land. The more I have learned about the project, the more excited I am about the possibilities for the future.

The comment period has provided meaningful time to review the document. Idahoans need to see the benefits of the Stibnite Gold Project come to life. It is with this knowledge that I encourage the U.S. Forest Service to select the modified plan of restoration and operations Midas Gold Idaho presented, known as Alternative 2 in the draft Environmental Impact Statement, and permit the project.

Midas Gold Idaho wants to invest \$1 billion in our state, bring more than 1,000 jobs to rural Idaho and still provide access to Idaho's public lands. This is the type of project our state needs. And with the coronavirus, we need it now more than ever. The USFS has provided sufficient time to review the document and provide comments. It is time to move forward. I highly encourage the U.S. Forest Service to pick alternative 2 as the preferred alternative for the Stibnite Gold Project.

Thanks for your Consideration,

Name: James R. Shultz
