

Payette National Forest,

I am writing to express my full support of Midas Gold Idaho and the Stibnite Gold Project. Midas Gold has shown its commitment to Valley County and the state of Idaho and I encourage you to adopt the proposed activities outlined in Alternative 2 during the permitting process.

Alternative 2 provides a higher degree of safety for both the location of a new tailings storage facility as well the road options for accessing the site. Under this alternative, Midas Gold will locate its tailings storage facility in an area that is already impacted by past mining activity, whereas Alternative 3 would place it in an untouched area of the site. This unnecessarily exposes more of the surrounding environment to mining operations. For road safety, Alternative 2 reduces the risk of potential spills, minimizes sediment runoff to waterways, and avoids winter avalanche site whereas Alternative 4 would keep the access road where it is, adjacent to the river.

I urge you to accept Midas Gold's plan as outlined under alternative two. The U.S. Forest Service has provided the public with helpful virtual tools and materials to submit meaningful comments on the project within the allotted timeframe. It is time to move this project forward.

Most Respectfully,

Name: Mark Durfee
