Comments: Hello,

Thank you for the opportunity to provide my feedback as part of Midas Gold Idaho's public permitting process.

Midas Gold has made it clear reclamation efforts will start alongside operations. They have worked to find safe access routes to the site that keeps vehicles away from our precious waterways. Plus, the company is trying to minimize their impact on the environment by keeping facilities within the existing footprint of historic mining operations.

Idahoans need to see the benefits of the Stibnite Gold Project come to life. The comment period should be kept to 60 days, so the process can continue to move forward. It is with this knowledge that I encourage the U.S. Forest Service to select the modified plan of restoration and operations Midas Gold Idaho presented, known as Alternative 2 in the draft Environmental Impact Statement, and permit the project.
