

GREETINGS,

I am writing in support of the Stibnite Gold Project and the benefits it will bring to Idaho. This project has the potential to put hundreds of Idahoans to work, bring a \$1 billion investment into our state and restore an area of Idaho's backcountry desperately in need of repair.

What I like about Midas Gold's plan is that it offers solutions for damage caused by legacy operations and creates a brighter future for the site. For example, Midas is cleaning up old mining waste from projects dating back to the WWII era. I know that Alternative 2 is a holistic proposal that addresses existing issues and protects against their reoccurrence. Tailings are just one issue related to mining projects, and Midas is addressing them directly. Under Alternative 2, the company will construct a long-term storage facility for future waste from mining operations. The facility is designed to withstand an earthquake up to 6.5 on the Richter scale. I feel confident the company has considered multiple scenarios in the design, so it will be able to operate continuously with no problems in order to protect the environment.

I urge you to accept Midas Gold's plan as outlined under alternative two. The U.S. Forest Service has provided the public with helpful virtual tools and materials to submit meaningful comments on the project within the allotted timeframe. It is time to move this project forward.

Best Wishes,

Name: Jared Johnson
