

GREETINGS,

I am writing to express my full support of Midas Gold Idaho and the Stibnite Gold Project. Midas Gold has shown its commitment to Valley County and the state of Idaho and I encourage you to adopt the proposed activities outlined in Alternative 2 during the permitting process.

Midas Gold is very aware of the water quality concerns at site and has been sampling it for years. They've found very high arsenic and antimony levels in certain areas, in some cases 700 times worse than what is considered safe. To address these issues, the company will remove legacy tailings and other waste that cause this issue. Overall, Alternative 2 seems to cover every risk factor possible; it improves upon the company's original 2016 plan, which they adjusted following feedback, and it is superior to Alternatives 3 and 4, which have more safety concerns and could cause delays. And of course, it is better than Alternative 5, which is to do nothing; we cannot afford that approach after all these years.

Thank you for reviewing my comments. Again, I urge you to permit Midas Gold's carefully thought out plan as outlined under alternative two.

Thank You,

Name: Bob Mozingo
