

Greetings,

I have been closely following Midas Gold Idaho's plans for several years. I am excited to finally have the opportunity to comment on their Draft EIS. Midas Gold Idaho presents a huge opportunity for the Gem State.

Midas Gold Idaho has prioritized public access to Idaho's backcountry. While the company feels Stibnite Road is too dangerous to safely transport employees and equipment to the site, they recognized how important this route was for residents who live in the area. The ModPRO they submitted to the U.S. Forest Service allows Idahoans to continue to access Thunder Mountain by driving through the site when it is safe and feasible. Review alternative 2 and you can see Midas Gold wants Idahoans to continue to have easy access to our public lands.

While the economic benefits of this project cannot be ignored, it also will transform an area in need for environmental repair. It is for all of these reasons that I encourage you to move the Stibnite Gold Project forward as outlined in alternative 2 within this 60-day comment period.

My best,

Name: Kory Bladt
