Comments: I am writing to express my full support of Midas Gold Idaho and the Stibnite Gold Project. Midas Gold has shown its commitment to Valley County and the state of Idaho and I encourage you to adopt the proposed activities outlined in Alternative 2 during the permitting process.

By law Midas Gold Idaho is required to set aside all of the money needed for restoration prior to any mining activity. This gives me, and Idahoans, peace of mind that the restoration work the company has discussed will come to fruition no matter what happens. If Midas Gold Idaho is allowed to move forward with its work, salmon will be reconnected to their native spawning grounds. This hasn't happened in 80 years! Mining has devastated this area. Midas Gold Idaho wants to fix it and I hope you will clear the path to allow their restoration work to move forward.

Idahoans need to see the benefits of the Stibnite Gold Project come to life. The comment period should be kept to 60 days, so the process can continue to move forward. It is with this knowledge that I encourage the U.S. Forest Service to select the modified plan of restoration and operations Midas Gold Idaho presented, known as Alternative 2 in the draft Environmental Impact Statement, and permit the project.
