Comments: The Nevada SHPO has reviewed the scoping document for this proposed undertaking. The SHPO recommends that the

U.S. Forest Service identify where the public might be able to find and review the draft Programmatic Agreement

mentioned in the documents. In addition, the SHPO recommends including an explicit statement in the scoping

document that the U.S. Forest Service will be using the NEPA scoping process in lieu of public involvement requirements

found in 36 CFR Part 800. These statements help the public to understand when and how they may comment on this

undertaking under Section 106.
