

Attention: Forest Supervisor Dewberry

1/2/2021

To Kerwin Dewberry, Forest Supervisor

I am writing regarding the scoping letter pertaining to the Bible Camp on Mount Graham. The camp exists today because of the fire mitigation efforts in and around the camp. It would have burned over in the Frye fire if these measures had not been taken over the years. This would have left this area desolate for not just the squirrels, but all wildlife. The camp has a long history of providing opportunities for countless youth to enjoy the National Forest. This is one of the Forest Services prime directives and I encourage you to renew the permit and allow many other youths, youth groups, those with ADA needs, etc., to continue to enjoy the forest. The site is a necessity in Graham County to provide this opportunity and is for the good of the community and the forest.
