Subject: White River National Forest Oil and Gas Leasing Environmental Impact Statement

October 21, 2012

Comment regarding the White River National Forest Oil and Gas Leasing Environmental Impact Statement:

I urge that you choose Alternative A rather than Alternative C because our Nation needs to be self reliant for our energy needs. All public lands should be available for exploration and production of petroleum, gas, uranium, and coal. These commodities occur where they occur and that should dictate where companies are permitted to explore, and if successful, to produce. Thank you for this opportunity to comment.

Jack C. Hamm
