Comments: Comment on DEIS/ Thompson Divide

Thanks in advance for considering my concerns.

I live on Four Mile Road in Glenwood Springs and moved there because of the natural beauty of the area as well as the generally wild and undisturbed environment nearby . I'm concerned about the possible oil and gas development in the area.

Please choose Alternative B and don't allow the renewal of any leases in the Thompson Divide.

The recreation and agriculture in this area are a far better use of the land than the short term gains from drilling.

Please protect our air and water and keep the area for future generations to use as it is.

Thanks,

Charlie Westerman
