Comments: I looked at the maps and clicked on every subject line on the right sidebar but didn't find any specifics of text. I guessing that will come later.

My comment is very simple: I hope that the project includes leaving fire wood size [ldquo]slash[rdquo] such as: oak, madrone and unsaleable fir logs in piles along roads for the public collect. I live within the McCash Fire footprint and I can access those dirt roads. I'm an elder widow and my family comes every year to help me get firewood. I remember the days when logs were [ldquo]yum[rdquo] yarded up to a landing where locals could get their years' worth of wood. I think many people would appreciate it.

Thank you for sending me the letter for comments
