Title:
Comments: As an off-road and dual sport rider I'm constantly challenged with road closures and reroutes .On my travels out west the Trans America Trail it's been the most spectacular in the Colorado's alpine region which I'm definitely planning to revisit either by another route (S to N) called the Continental Divide or the Colorado backcountry discovery route or even just the Alpine loop road.

Being part of a bigger adventure motorcycle group,we all used to daydream about being out in the Colorado's high country,please don't take that dream away from us and leave those roads open for us,we love getting lost on those PM and SPM roads, thank you !
