Comments: Swan River EA CPW Letter

Adam / Ashley

My sincere apologies, I have just discovered in my draft folder that I started to send this Swan River EA letter but failed to send it. I had it in my mind that this was sent and taken care of, but upon looking in my sent email folder that does not appear to be the case.

Please see attached for our letter, and hopefully you will still be able to accept it.

Thanks Much, Happy New Year! And Ashley, congratulations on your new position. It truly has been great working with you, even on a weekend posting signs following up on a bear attack... You will be missed!
