Title:
Comments: My sons has been spending 4 weeks of their summer at Kingswood Camp for Boys on the shores of Lake Tarleton for 8 and 5 years respectively. Their time time spent there in the outdoors has been a key part of their growth and development, and has shaped the educational and career goals of my older son. I urge you to reconsider the Tarleton Integrated Resource Project. I am opposed to logging the woods surrounding Lake Tarleton, and believe the land surrounding Lake Tarleton should be reclassified as MA 8.5 to designate it as scenic area.
