Comments: Many summers of my youth were spent camping at Holland Lake with friends' families. It quickly became a favorite place & I so looked forward to that week every year. After marriage & starting a family we continued camping at Holland with our own family & kept the tradition going for many years & became the preferred place for family reunions. Holland Lake is the most pristine place I know, both in summer & winter. It's cold, clear water holds many memories of swimming, rafting, canoeing, paddle boarding, and boating across the lake to jump off the rope swing. Or the hikes to the scenic, beautiful falls in the coolness of the early dawn to capture the picturesque Mountain View's. This proposed plan will be devastating to the wildlife in the area and ruin Holland Lake as we know it. It should not be allowed to move forward. It will not only scar the breathtaking landscape, but also interrupt the tranquility & peace of this hallowed place by bringing an onslaught of noise & busyness to a serene & perfect hidden treasure. Please don't allow this very special place to be turned into another Lake Tahoe. We the people are speaking out loud...we don't want or need another big resort...we want Holland Lake left alone! #saveHollandLake
