

Let's get away from foreign oil. Let's be independent again. We should not be buying oil from our enemies. Let's put our people back to work. Apparently, our clean earth people only care about the USA. Noone else strives to be as careful as the USA. And the amount of diesel fuel it takes to ship it her from our enemies is astronomical. Ans the chances of oil spills in the ocean is a lot higher. So bring back our oil.

I urge you to approve Perpetua Resources' project. The Stibnite Gold Project will provide a huge benefit to our community and the local environment and the company has taken the time to reduce its footprint and improve water quality at site. The permitting process is designed to move the best plans forward and I feel that is what we will do with the 2021 Modified Mine Plan.
