Scott Harrison  
Director of Hospitality  
Killington Ski Resort  
Killington, Vermont

Scott:

The Town of Killington supports the proposal to provide snowmobile access to the Killington Road Area. As part of the Six Peaks Development project which will be funded through the TIF (Tax Incremental Financing) program, complete streets design criteria along with other transportation alternatives will be included in the Killington Road redesign. Adding four-wheeler, snowmobile and mountain bike access will enhance the economic benefits of the resort. The Chittenden Dammers, Inc. is working with Vermont Association of Snow Travelers (VAST) and the U.S. Federal Forest Service (USFS) to bring a multiuse trail including snowmobile access to the Killington area, specifically to town businesses. There will be a main trail that crosses Route 4, a trail traveling parallel to Killington Road and smaller access trails leading to businesses in Killington.

Sincerely,

Chester Hagenbarth
