Jan,
I enjoyed our visit this morning and appreciate the opportunity to learn more about the utility project.
Thank you for the map and the link. I think I can tell where the new underground lines will go.
Thanks to you and other decision makers in the Forest Service for keeping the corridor next to highway 341 and for putting the lines underground.
Please pass along my phone number [REDACTED] to Ron Hollis and ask him if he would please call me in the next couple of weeks so we can talk about scheduling a meeting with some Ozark Society members sometime in April if that works for him.

Thanks,
Tom McClure
