Comments: Hello I am a resident of the Harlowe Community and I was wondering if there is a meeting scheduled to inform residents of the progress on our beaches and trails in our area? If not I know that the residents would like to have a townhall meeting to discuss the future plans for these areas of interest. I have attached a document with the contact information for Lottie Hayes a community organizer and she would be a great person to spread the word about a meeting to let the residents of the area know what the plans are for these projects and if more community involvement would help facilitate the process.
