Last name: Van Cleave

Organization: Cascade Timber Consulting

Title:

Comments: I received an email on your proposed Upper Canyon Project and am excited to see this project on the Sweet Home District. As a neighboring land owner and a cost share road cooperator, I had a question regarding the proposed decommissioned roads. The 142 road shown on map is proposed for decommissioning, from my records this is a cost road and mostly on our property. I was wondering if there is a better map available with your project to help clarify this?
