Comments: The neighborhood trail that connects the Bent Creek Community Park & playground to the experimental forest and Corvair trail is beloved and well used and I think it's critical it is maintained or improved by this process. I'm worried the trees will be stripped out, eliminating the shade that is so crucial to the trail being pleasant during the hot months.

My wife and I walk our dog with our young daughter along the trail all the time, and I try to get out to mountain bike whenever I can; we'd be heartbroken to see the trail compromised.
