Comments: Hi,

It looks like there will be some "Veg management without saw timber product" work done near the Bent Creek neighborhood. The highlighted area in red on the attached screenshot is known to the community as the neighborhood trail. This trail is very loved and heavily used by many in the Bent Creek neighborhood. My family uses this trail regularly to walk our dog and go for bike rides. I do have some concern about this project drastically changing the neighborhood trail that is so loved by our community. The area definitely needs some maintenance and thinning but I think we'd all be very upset if it was clear cut. Thank you for hearing our concerns about the project!

Thanks,

Ryan
