Tongass National Forest Supervisor's Office

648 Mission Street, Suite 110

Federal Building

Ketchikan, AK 99901

RE: Tongass National Forest Land Management Plan Revision #64039

Dear Chief Tom Schultz,

It is important to me that the new Forest Service management plan for the Tongass National Forest:

- Protect salmon habitat with increased Forest-wide stream buffers and watershed-scale protections.
- Protect remaining wildlife habitat: particularly the winter range for deer.
- End industrial old growth logging and road building.
- Complete the transition out of old-growth logging.
- Fix the deer and salmon habitat degraded by past management practices.

Conservation and sustainable use of the Tongass' incredible resources must be the foundation of a new plan. A timber-first approach is inappropriate, deeply unpopular and poses risks to other forest-dependent industries and ways of life.

Thanks for prioritizing the Tongass' wild salmon runs that support a vibrant Tongass, local uses and our economy.

Sincerely,
