Title:

Comments: These are the comments of James F. Clark in my personal capacity. I have attempted to raise new and different issues that should be addressed such as; 1) treating the TNF as a mining district; 2) special rules for road building and vegetation management in IRAs should the Roadless Rule remain in effect during all or a portion of the Plan life; 3) decoupling the Roadless Rule from the New Forest Plan if the Roadless Rule is not in effect for all or a portion of the Plan life; 4) making the new Part 228 regulations the same as the 3809 regulations as applied to the Tongass; and others.

Thank you for the opportunity to comment. I appreciate the hard work and thought that goes into developing this Plan - especially when you are short-staffed. Regards, Jim Clark.
