Title:

Comments: My name is Kraig Stevenson; my contact information is kraigksi@outlook.com Thank you for the opportunity to comment on the Blue Mountain Forest Plan.

I have attached my document which contains eight comments ranging from increasing accessibility for people that have mobility limitations because they need improved recreation access. I address wildfire concerns and the encouragement of collaborating with communities to develop community wildfire protection plans and to be allowed to use nationally recognized standards to mitigate wildfire impacts to structures. I comment on providing clear alignment with existing USFS regulations to allow rebuilding after natural disasters including fire. Lastly, I make comments regarding protection of water sources.
